

FOR IMMEDIATE RELEASE

SS8 Networks and NEC do Brazil develop a joint offer for Lawful Interception Solutions

NEC Brazil to Integrate SS8 Networks lawful intercept solutions throughout country

Milpitas, CA, December 6, 2007 -- SS8 Networks announced today that it has partnered with NEC do Brazil for the distribution of its lawful intercept solutions in Brazil.

“We view this partnership as a wonderful opportunity to expand our lawful interception solution set in Brazil for now and to lay a foundation for future distribution throughout South America, Mexico and Japan,” said Dennis Haar, president and CEO for SS8 Networks. “We look forward to working with NEC as part of SS8’s global expansion initiative.”

According to the terms of the deal, NEC do Brazil will handle the distribution of SS8 Networks’ lawful intercept solutions to service providers and local governments throughout Brazil. NEC do Brazil will handle installation and service for all SS8 Networks products.

“We are excited to work with SS8 Networks in Brazil,” said Herberto Yamamuro, Operations Director for NEC do Brazil. “After evaluating many competing solutions, we chose to work with SS8 based on their solutions’ flexibility and also the company’s ability to move quickly and nimbly.”

About NEC do Brasil :

In Brazil, NEC provides an array of telecommunications and IT solutions for operators, businesses and government. NEC also develops special supercomputing and industrial automation projects in Brazil..Additional information can be obtained from our website at www.nec.com.br.

About SS8 Networks

SS8 Networks, headquartered in Milpitas, Calif., is an independent provider of carrier-grade, regulatory-compliant electronic surveillance solutions that have been deployed on all continents for the largest wireline, wireless, cable, VoIP and satellite service providers. These voice and data installations can already intercept more than 500 million subscribers, and serve over 10,000 law enforcement agents.

SS8's expertise in communications forensics ensures that intercepted traffic is securely targeted, seized, stored, transferred and analyzed, so that evidentiary chain of custody is maintained for successful criminal prosecution. For more information, please go to www.ss8.com.
